EXHIBIT C

01-16-2008

Dear Judge Batts,

First and foremost, I will like to apologize to the court, the government, my family and every single person that has been affected one way or the other by my actions. I am deeply sorry for my crimes and if I had to be it all over again, I'll do things

differently.

Your honour, as you may already Know, I am an imigrant from Chana, West Africa and like many others, I am obliged to leave my home and family to travel abroad to seek greener pastures due to the economic conditions of Africa. I left Ghana at a young age after having lost my father and there was no me to help. I am the first of 3 children and I had to assume the responsibility of their access of my my mother. boility of taking care of my mother, my brother and my sister. I come from a polygamy family setup and therefore have several other, brothers and sisters. My family was very poor growing up but despite the financial restraints, my father managed to

(2)

he has taught me until his untimely death.

My nother on the other hand epilepsy. Epilepsy is a disorder of the brain characterized by sudden attacks or seizures. She suffers from a type of epilepsy known as the grand mal, which is the most dramatic type of epilepsy. During attacks, she looses consciousness and falls and her muscles jerk for about a few minutes after which she goes into deep sleep. She gets prequent attacks and on one occasion, she had an attack while preparing dinner and she pell and got burnt severely on one side of her free head. My nother is the only parent I have left and seeing her go through this pain was unbearable.

I travelled to the United States to

(3)

take care of my family back home. I have been the sole provider for my nother and siblings all these years toping as far as food, shelter, medical bills, and tuition are concerned. I haven't seen my family in almost Tycars but the my only consoletion is that, I am able to take care of them and she is best healthy and happy. My brother is in college and my fister has completed high school and awarting to enter college. I am an ambitious persons who wents to 90 to college and become a radiologist. but neverthèless I was forced to put that aside due to immigration issues. met my wife Tracey in Droz and we got married the following year. She has been very loving, caring and supportive. A few months after we met, she was admitted at the hospital and I came to learn that she had Lupus. At first, she didn't want to tell me and was ashamed of it and was afraid I might leave her, but rather I consoled her and told (G)

her about my own story. I told her about my mother suffering from a major illness but my futher never abandoned her, therefore I'm gonna follow my father's fort steps and do all I could to take care of her.

Lupus is a disease that attacks the immune system and therby

leaving the body open to all sorts of illnesses. The gets all sorts of rashes all over her face and body and sometimes can hardly walk or even talk. Due to her illness, she could never keep a job and so could not contribute to the family income. I was responsible for everything. I never wested her to be a burden to the put society and therefore refuged to let her apply for per government assistance. I took everything upon myself and was the bread winner of 2 families, the one bulk home, (5)

and this one in America.

I tried to go back to college at Essex country in Newark where I want previously attended for one semester but couldn't continue due la financial restraints. I had so many financial difficulties and the stress and desperation ted me to succumb to the invitation to engage in this criminal activity. I took part in this immoral act and new exactly that what I was doing was bad. My intentions was to save some money to solve some of my problems but I still felt very uncon-Ar table with myself . I hid it from my family and friends. After about 2 months, I desided with drew from if and I went and applied for esllege. I payed the balance I swed and also payed for the current semester. It was a new year and this was my new years resolution at started attending college and water eventually my bad deeds Eaught up with me. I got arrested on January 22 rd pand

have been detained since then I have never been been in prison before and I am the first in my entire family to be in prison. I have brought so much pain and disgrace to the same people I was trying to help. Being here for this long has given me move than enough time to that analyse my life and the in fact, if I had the to do it all over again, I'll do things differently. I have caused so many people grief and sorrow and offended so many, most importantly my God. I fast twice a week hoping for forgiveness from God. The ft is a very serious crine in my religion, is punishable by the amputation of the wrist. I am at risk of recieving this punishment when I return home. I am very upset with myself and weep in my lones one. I have lost my beloved

0

consin white who was only 17 while in here. I couldn't even be at her funeral. This jaid thing is not for me. I am somebody who wants to be out There and provide help for others, even if not financially, I can give phys, cal and emotional support. My life is a waste being in here I look at being in prison as something next to death because I cannot be of any use to the ones that give meaning to my existense namely my mother and my wife. One thing if for sure though, through all this poin and skess that I can through this pain and stress that I go through all this pain and stress that I go through on a daily basis, I have learned that the end does not always pishify the means. I have also bearned to have more respect for the law. I have also learned that what ever effort I put in do committing this crime, I could have used the same effort to do positive stuff. I have really blarned a fot your honour. I am absolutely ready to go out and face the world as a better person with

a promising puture. I also plan to share my experience to the younger ones around me and I hope to make a difference.

make a difference.

I therefore ask your honours mercy and lendency at the time of sentensing. I also want to make a promise to you that, whatever teniency you bestow on me will be highly appreciated and will be used in the most positive way. You don't have to worry about seeing me in your court again. I'll do every thing in my power to completely stay out of trouble

Once again, I am depending on your mercy, not only me, but my mother, my wife, my little cousins, my grand parents and my plate entire family as a whole. In fact your lensency will og, along way to save lives.

yours faithfully Abass Bles.
